

ALCOA  
FUTURE WOMAN  
OF INDUSTRY  
SCHOLARSHIPS

2004

Tara  
Ward

Jasmine  
Beckett

australia's aluminium

Awarded to

# Hamilton Senior High School

on behalf of

Alcoa World Alumina Australia  
Kwinana Refinery

Link to the Future

The Scholarship aims to encourage young women in our community to consider a non-traditional career. During 2004 scholars have toured Alcoa's operations, worked on site alongside a buddy, attended networking events and participated in the Murdoch University School of Engineering Day.

We value your schools involvement as a partner in Alcoa's unique program and we look forward to, one day seeing your Scholars working in industry.

A handwritten signature in black ink that reads "Butterworth".

Simon Butterworth  
Kwinana Refinery Manager
