Students Online in Pubic Schools

Our school provides access to Department of Education online services. These enhance the contemporary learning opportunities available to students and the range of teaching tools available to staff to deliver the Western Australian Curriculum. Online educational resources and cloud-based storage are used by teachers across Western Australia to improve student learning outcomes. Our staff make decisions about the best technology to meet the needs of our students.

The below online resources have been assessed by the Department of Education in accordance with Procedures section 3.4 of the Students Online in Public Schools Policy

Please take the time to read through the Privacy Policy and Terms & Conditions of the following software and provide consent for your children. Consent can be given in person, by phone or via the Compass app/website directly.

Please be aware that some software may be required in various programs, and declining consent for use of Adobe means that your child may be unable to partake in any photography, media, or design programs.

Low Risk/Bundled Consent Required:

Adobe Creative Cloud
Purpose: A suite of over 20 desktop and web-based design applications used for graphic design, video editing, web development, photography, and animation
